

On-Site Rapid COVID 19 Testing

WWW.AB-MEDICAL.CO.UK

What is Rapid COVID 19 Testing?

We are pleased to offer rapid COVID 19 (SARS-Cov2) antigen testing which involves a nasal sample being taken and the results professionally interpreted.

How long does it take?

Our rapid COVID 19 Testing service gives results in as little as 15 minutes. Our tests are processed on-location reducing waiting times and reducing isolation times.

What do I receive?

One of our Healthcare Professionals will attend your site to test clients, staff or customers. A test report / certificate will be provided for your records

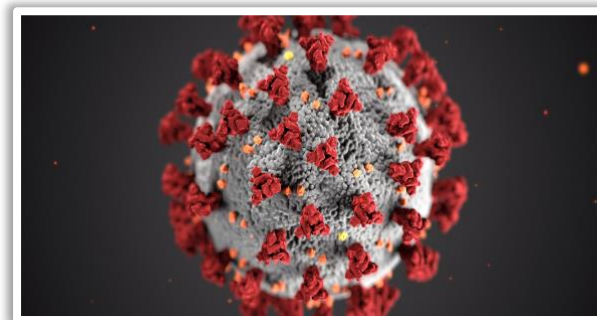

Who are We?

We are a Care Quality Commission registered Independent Ambulance Service based in the South East of England. We are specialists in the following areas

- *Pre-Hospital Care*
- *Event Medical Services*
- *Medical Event Management*
- *Urgent & Primary Care Services*
- *Medical Repatriation Services*
- *Medical Consultancy Services*

Our tests use a simple nasal swab to collect the sample.

Our rapid SARS-CoV2 (COVID-19) tests are UK Government approved with a sensitivity of 96.52% and a specificity of 99.68%
